Permanent Cure of Dyspepsia and habitual Costiveness.

To Dr Ralph

DEAR SIR—I have myself, almost no occasion for your inestimable Pills. I have used them six years, as occasion dictated, and I have reason to suppose they have wrought a thorough and permanent change in respect to the functions of the stomach. From habitual costiveness, and the voiding of nauseous and slimy stools I am completely relieved. The multifarious symptoms of Dyspepsia with which I was once too well acquainted have so entirely passed away, that I hardly know what they were. Any use you can make of this, or a more full development of my case, is at your service.

Except in an epidemic since your book [Family Physician] and Pills have been the only physician in my house for six years.

There are many of my friends around, and more and more who call for your Pills as a family medicine and for chronic cases. Yours truly,
Horace Waldo

Kirkbride's Tattersall's
HEAVE POWDERS:

A SAFE SPEEDY AND PERMANENT CURE *for Heaves Broken Wind, Chronic Cough, Colds* and all diseases which operate upon the air of the mucous membrane in the lungs, throat or head of the Horse, or affect the

Soundness of the Animal's Wind,

This remedy which has been used with such remarkable success in England is now offered to Horse owners in the United States as a positive specific for those obstinate and distressing complaints. From the combination of powerful vegetable ingredients in its composition it is enabled to cope so successfully with disease in the bodily economy of the Horse, and at the same time is warranted to be perfectly safe and genial as eaten greedily by Horses and other cattle, and does not at all inconvenience the animal, or deter him from usual labor. The following is one amongst many proofs we have of its efficacy. It is from one of the best Farriers in New York and a gentleman whose knowledge in the medical treatment of Horses is very extensive.

New York Nov 1 1847

Messrs A H Gough & Co

Gentlemen—You will recollect that I bought a package of your Heave Powders some time ago to administer to a valuable horse at livery in my stables and that I was quite dubious of the wisdom of attempting to cure such a bad case as his was and did not, in fact, believe there were any medicines better for his complaint than those I had been in the habit of using during my extensive practice with Horses. But justice to you and your *valuable remedy* requires me to say that that *single package cured the animal* of an aggravated case of Heaves as I ever saw and his wind is now perfectly good. I believe the cure is a permanent one.

Respectfully, ED FLOYD 109 Laurence-st

Messrs A H Gough & Co—Gents I bought, about six weeks ago, a package of Heave Powders to administer to a favorite horse who had been troubled with heaves for more than two years. His case was a very bad one and so severe as to incapacitate him from half his usual labor and had resisted all the remedies ordinarily used for this disorder. These had no effect but to slightly diminish the violence of the heaving while taking the medicine, but that package of your remedy has completely eradicated the disease, and now his wind is as good as ever it was. It is a month since he has taken the Powders, and I can warrant him sound.

Respectfully, GEO W DAVIS
Monroe, Middlesex Co, N.J.

GREAT CONDITION MEDICINE.

Besides their specific action upon diseases of the lungs and windpipe, the Tattersall's Heave Powders, from their great alterative and restorative properties are as effectual to horses as sarsaparilla proves to be in the human race for the removal of impurities of the blood and predisposition to disease. Many a case of founder has been prevented and cured by a few doses of the Heave Powders when thrown into the food that is given to the heated animal after a hard drive or exposure to inclement weather. They are warranted to cure the worst cough in a few days, and will wholly eradicate a recent cold by the use of 1 or 2 doses. As a condition medicine they are unequalled, especially when a tight hide, staring coat, loss of appetite, etc, denote a derangement of the digestive functions, or existence of bots and worms in the alimentary canal as described in the following certificate.

Messrs A. H. Gough & Co—That package of your Heave Powders that I bought of you for my horse's cough has entirely cured him, but in a different way than I expected. The first dose of Expectorant Powder that I administered brought away an immense number of worms from him, and I believe they were all the cause of the cough, rough coat, etc, which he exhibited, for that package has entirely cured him; his appetite is good, and he is now in prime condition. I cheerfully recommend your Heave Powders for worms as well as heaves. Yours, SAM'L ROBERTS.

East Hampstead, L. I., Oct 26, 1847

CAUTION. As several imitations of this valuable and popular remedy are about being put up under the name of "Heave Cure," "Jones Compound," &c., persons are cautioned to beware of them, and to refuse any remedy but *Kirkbride's Tattersall's Heave Powders*.

M'Alister's ALL-HEALING Ointment,

FOR THE CURE OF Colds, coughs, consumptions, for scrofula, scurvy and all cutaneous eruptions, for bruises, burns, ulcers, sores of all kinds and general or local debility.

This celebrated Ointment has a most striking effect upon the blood in cleansing it from all impurities upon the synovial fluid which lubricates the joints and thus removes stiffness, soreness and pain upon the lymphatic ganglia or glands, promoting the free and healthy secretion of the lymphatic fluid and thus removes swelling of the glands about the neck, the groins, the axilla or under the arm, about the ear, and all other parts of the body.

This All Healing Ointment is equally efficacious in promoting the secretions of the kidneys, relieving from retention of urine and by restoring the tone and function of the urinary organs thus preventing incontinence of urine. It is equally efficacious in acting upon the nervous system by curing neuralgia, St Vitus's dance, palsy, paralyses, numbness or want of feeling or power of motion from some local or general affection of the nervous tissue. It acts with great power on all the fluids and solids of the body and attacks disease in whatever part located whether on the surface or internal organs.

We speak the things which we know of the astounding efficacy of this justly celebrated invaluable and worthily named "ALL HEALING OINTMENT." The innumerable pains that have been assuaged, the ten thousand sufferers relieved and cured, and the more than ten thousand hearts which have been comforted and cheered by its salubrious efficacy, testifying to the truth of all, and more than all, herein inserted.

The Great Remedy for Gonorrhœa

GLEET, Stricture and all analagous complaints, is DR DOUGLASS'S ARABIAN PASTE. Dr Douglass is well known having practiced in the principal cities in the Union during the last 40 years. His only reason for introducing the Paste in this public manner is the consciousness that there are thousands of ill treated complaints in this city—thousands of individuals who are going down to premature graves by taking the miserable drugs of quacks.

Dr Douglass solemnly affirms that during his practice of forty years this Paste has never in one single instance failed effecting a cure in a few days without any change of diet or hindrance from business. He has had some of the most stubborn cases—cases that have resisted the regular course of treatment adopted by our first physicians, for months and even years but after taking the Paste for a few days the angry symptoms disappeared and the patients were discharged entirely cured.

If the unfortunate instead of drugging themselves with quack nostrums would purchase only one box of the Arabian Paste we should not see so many emanciated bodies and sallow countenances as we do at the present time.

☞ In case this Paste should fail to effect a cure in the shortest possible time, ten times the price paid for it will be given the purchasers on returning the empty boxes.

For sale only by the original inventor and sole proprietor, Dr ULRIC G. DOUGLASS, at his Office No. 55 Union street Boston at $5 per box where he can be confidently consulted on every disease incident to the human frame and the patient rely upon the most beneficial course of treatment that can possibly be adopted.

MONDAY, MAY 1, 1848.

Whig State Convention.

The Whigs in the several Towns and Plantations in this State are requested to send Delegates to a Convention to be holden at AUGUSTA, on *Wednesday the twenty fourth day of May next*

To nominate a candidate to be supported by the Whig party for Governor for the ensuing political year

To choose two Delegates at large to the National Whig Convention, for the nomination of candidates for the Presidency and Vice Presidency to be held at Philadelphia on the seventh day of June next

To choose two candidates for Electors at large, at the Presidential election

And to act upon any other business that may come before the Convention

Every town and organized plantation is requested to send one Delegate—towns having one thousand inhabitants by the census of 1840 are requested to send two Delegates—towns having two thousand inhabitants are requested to send three, for each additional thousand inhabitants to send an additional Delegate

By order of the Whig State Committee
March, 3, 1848

District Convention.

The WHIGS of the SIXTH CONGRESSIONAL DISTRICT composed of the counties of Penobscot and Piscataquis are hereby invited to meet in Convention by their Delegates, at the City Hall in Bangor on *Thursday* the 4th day of May next at 11 o'clock A M for the purpose of choosing a Delegate to attend the Whig National Convention to be holden at Philadelphia on the 7th day of June next to nominate candidates for the office of President and Vice President of the United States. The several towns in said District are requested to send the same number of delegates that, by party usages they are entitled to send to Congressional Conventions

Per order of the District Committee
Bangor March 21 1848

☞ We learn that the delegates chosen to the State and District Conventions by caucuses held in the several wards on Saturday evening are in favor of the nomination of Gen Taylor by the Whig National Convention We have not been able to obtain the names for publication this morning

---

☞ The following communication, said to have been written by one who attended the caucus referred to, appeared in the Mercury of Saturday It explains, or qualifies, or corrects any statement of the Whig, we are perfectly willing the writer should have the benefit of it We certainly stated the case as we then understood it—

"At the Whig caucus, last evening, for the election of 3 delegates to State convention and one for District Convention, the tickets having Edward Kent and others, for delegates and which was claimed to be the Taylor ticket, was elected by 70 majority—as follows, to wit, for said ticket 170—for the other ticket, which was headed the *unpledged* ticket 100—The only ballots thrown at said meeting were those supposed to be favoring Taylor and the *unpledged* ticket—the Whig to the contrary notwithstanding It is a sheer misrepresentation to say that those unpledged tickets were thrown by those who were in favor of Henry Clay Those who went for the unpledged tickets were opposed to giving any one the preference here—but thought it best to leave the question with the U S Convention to get the best and most available candidate

---

☞ The Thomaston Gazette states that the body of Capt Elijah Crockett, who has been missing since the 27th of Jan—was found on Tuesday evening, by Mr John Dougherty It was a mere accident by which he was discovered Dougherty was returning from his day's labor across a pasture owned by Mr Wm Butler—about a mile and a half from the village—between Pleasant Street and the River Road

His body lay as if he stumbled into a little hollow between two knolls—his face downward—his left foot thrown across, the right under—his right hand under his body and his left laying as if thrown out at random to save his fall His hat and clothes show that he scarcely moved after falling—but probably benumbed by the cold and tempest of that fearful night until the vital spark went out, untended and unwatched by any *friendly eye*

A jury have decided that he came to his death by exposure to the inclemency of the weather

---

☞ Another foreign steamer will probably arrive at New York prior to the issue of our paper this morning it, indeed, another column may not, contain a portion of the news which she may bring—At the time of this writing Saturday afternoon, this is the expectation and there is great anxiety here and throughout the country to learn the news from England particularly in relation to the great Chartist demonstration which was to take place in London on the 10th of April We notice by the New York papers that the impression there accords with that in this city and is, that the British Government are ready and willing to meet the crisis, and if necessary, to shed blood to protect the laws from violence and the Government from a wreck, The exigency of the case is most exciting many believe that the Revolutionary spirit that prevails on the Continent, will spread to England, and that the institutions of that country are in danger If the Chartists yield, and do not assemble, it will give great confidence to the people of England, as well as to those in all parts of the world,—that the Government is strong enough to put down any faction in any part of the kingdom

☞ The Newburyport Herald of Friday last, says—"There was not a cask of Lime in this town, and in several places masons were compelled yesterday, to suspend work, in consequence"

If it is any satisfaction to our cotemporary, we would inform him that there is a plenty of Lime at Thomaston and Camden!

Launches this Morning.

Will be launched from the Ship Yard of Isaac Dunning, this forenoon at 8 o'clock, two brigs of about 200 tons each One of them is called "Charlotte," and is owned by R K Stetson, and Nathan Hopkins of Hampden, to be commanded by Joseph Hopkins

The other is called "Niagara," and is owned by Henry Frost Esq of Portsmouth, N H, and Capt. A. S. Harding, who will command her.

☞ A late arrival from the Sandwich Islands brings the melancholy intelligence of the death of Mr. Wm Richards, the King's Minister of public Instruction. Mr Richards was a native of Plainfield, Conn., and went to the Sandwich Islands in 1823, as a missionary, in which capacity he served until March, 1838, when he received the honorable appointment which he filled until his death He was greatly beloved and respected

☞ A correspondent complains bitterly of our notice of the proceedings of the Whig caucus on Friday evening, because we stated that it was an open and fair contest between those who prefer the nomination at the National Convention, of Henry Clay, and Zachary Taylor, and that the Taylor delegates were chosen

It is possible and probable, that it would have been better to have said that the contest was between the friends of Gen Taylor and the friends of all other candidates

We are snapped at for saying the caucus was fully attended Well, two hundred and seventy odd ballots were thrown

We are complained of for the remark that the majority was large It was seventy-two out of two hundred and seventy-two

A New Telegraph.

A correspondent of the Journal of Commerce speaks of a new telegraph, the invention of Mr Bain of England, where the patent has been sold for £12,000 This Telegraph, says the correspondent of the Journal of Commerce, is capable of transmitting one thousand words per minute, and could telegraph the President's message in an hour

The inventor has taken measures to secure a patent in this country.

☞ The editor of the New York Tribune, in reply to a correspondent who demanded a right to occupy a portion of the columns of the paper he subscribed and paid for, remarks that subscribers to newspapers have no such right, and if they had, that most editors would black their faces and get some friend to sell them to the cultivator of a Carolina rice swamp if nothing else offered in the way of earning an honest livelihood besides editing—We agree to that wholly

Large Timber.

A large log was landed on the Machias river, the past winter, hauled on a "three turn road," by a six ox team, owned by Joseph Day, and driven by John Elesmore at Wesley, which measured three thousand nine hundred and sixty four feet Scaled by Mr Elijah Parsons of Orono

☞ Mr Brockmuller proposes giving a grand Fair at his Green House, on Palm street, on this, May Day His plan of operations may be seen on referring to his advertising card in another column

☞ Mr White at Mount Hope Green House will open his dwelling, green house and grounds for a public levee and auction sale of plants during this May Day

☞ One of the Boston Watchmen, Mr David Esters, was murdered a few nights since, by being shot, while in the discharge of his duty

☞ In Boston on Thursday night last, a woman by the name of Ellen Oakes was shot by Augustus Dutee, three balls passing through her neck Dutee then made an attempt on his own life

☞ It is reported that Santa Anna wrote a letter just before embarking from Mexico, expressing the opinion that the treaty of peace would not be ratified

An animated debate sprang up, in which Messrs Stephens, McLand, Cobb and Hilliard participated

The Irish Deputation and Lamartine's Address.

The 3d inst being the day fixed by the Provisional Government for the reception of the the Irish deputation, Wm Smith O Brien, and the other members of the confederation went to the Hotel at half past 3 o clock to present their address They were received by M de Lamartine alone. Besides the address of the Irish confederation, addresses were presented by Mr R O Gorman, Jr, from the citizens of Dublin, by Mr Meagher, from the Repealers of Manchester, and by Mr McDermott, from the members of the Irish confederation residents in Liverpool The following is M de Lamartine's reply—

"Citizens of Ireland—If we require a fresh proof of the pacific influence of the proclamation of the great democratic principles,—this new Christianity bursting forth at the opportune moment, and dividing the world as formerly into a Pagan and Christian community—we should certainly discern this proof of the omnipotent action of an idea in the visits spontaneously paid in this city to Republican France, and the principles which animate her, by the nations or by fractions of nations of Europe—We are not astonished to see to-day a deputation from Ireland

Ireland knows how deeply her destinies, her sufferings, and her successive advances in the path of religious liberty of unity, and of constitutional equality with the other parts of the United Kingdom, have at all times moved the heart of Europe We said as much a few days ago, to another deputation of your fellow citizens We said as much to all the children of that glorious isle of Erin which the natural genius of its inhabitants and the striking events of its history, render equally symbolical of the poetry and heroism of the nations of the North Rest assured, therefore, that you will find in France, under the Republic, a response to all the sentiments which you express towards it Tell your citizens that the name of Ireland is synonymous with the name of liberty, courageously defended against privilege,—that it is one common name to every French citizen—Tell them that this reciprocity which they invoke—that this reciprocity of which they are not oblivious—the Republic will be proud to remember and to practice invariably towards the Irish

Tell them, above all, that the French Republic is not and never will be, an aristocratic Republic, in which liberty is merely abused as the mask of privilege, but a Republic embracing the entire community, and securing to all the same rights and the same benefits As regards other encouragements it would neither be expedient to hold them out nor for you to receive them I have already expressed the same opinion with reference to Germany, Belgium and Italy, and I repeat it with reference to every nation which is involved in internal disputes, which is either divided against itself, or at variance with its government When there is a difference of race when nations are aliens in blood, intervention is not allowable We belong to no party in Ireland or elsewhere, except to that which contends for justice, for liberty, for the happiness of the Irish people No other part would be acceptable to us in a time of peace In the interests and the passions of foreign nations France is desirous of reserving herself free for the maintenance of the rights of all

We are at peace, and we are desirous of remaining on good terms of equality, not with this or that part of Great Britain, but with Great Britain entire We believe this peace to be useful and honorable not only to Great Britain and the French Republic, but to the human race We will not commit an act, we will not utter a word, we will not breathe an insinuation at variance with the principles of the reciprocal inviolability of nations, which we have proclaimed and of which the Continent of Europe is already gathering the fruits

The fallen monarchy had treaties and diplomatists Our diplomatists are nations—our treaties are sympathies We should be insane were we openly to exchange such a diplomacy for unmeaning and partial alliances with even the most legitimate parties in the countries which surround us We are not competent either to judge them, or prefer some of them to others By announcing our partizanship of the one side, we should declare ourselves the enemies of the other We do not wish to be the enemies of any of your fellow countrymen We wish, on the contrary by a faithful observance of the republican pledges to remove all the prejudices which may mutually exist between our neighbors and ourselves This course, however painful it may be, is imposed on us by the law of nations, as well as by our historical reminiscences

Do you know what it was which most served to irritate France and estrange her from England during the first Republic? It was the civil war in portion of our territory, supported, subsidised, and assisted by Mr Pitt It was the encouragement and the arms given to Frenchmen heroical as yourselves, but Frenchmen fighting against their fellow citizens This was not honorable warfare It was a royalist propagandism waged with French blood against the Republic This policy is not yet, in spite of all our efforts, entirely effaced from the memory of the nation Well, this cause of dissension between Great Britain and us, we will never renew by taking any similar course We accept with gratitude expressions of friendship from the different Nationalities included in the British Empire

We ardently wish that justice may be found and strengthen the friendship of races, that equality may become more and more its basis—But while proclaiming with you, with her (England) and with all the holy dogmas of fraternity, we will perform only acts of brotherhood, in conformity with our principles, and our feelings towards the Irish nation"

Fatal Accident.

We learn that Wm. F Libby, formerly of Gorham, was suddenly killed at Bridgton, under the following circumstances: He was engaged with a team of Mr S. Walker, in whose employ he was, and in endeavoring to turn with a heavy stick of timber on a pair of wheels, one wheel locked in with the timber, bringing the other wheel from the ground into the air After several ineffectual attempts to accomplish his object, he took the oxen from the tongue or drafts, and hitched them with a chain to the wheel which was thus raised, from the ground The sudden pull of the oxen brought round the loose tongue with great violence, hitting him on the head and causing instant death. He was a worthy young man, aged about [illegible], and was to have been married in a few days.—Portland Adv,

ARRIVAL IN NEW YORK.

OF THE

STEAMER AMERICA.

Seven days later from Europe.

The steamer America, arrived at New York on Saturday morning, having left Liverpool on the 15th, bringing dates 7 days later

"The following news was sent by the Magnetic Telegraph to the Portland Umpire and we are indebted to that paper for the means of furnishing the news to our readers forty eight hours in advance of the regular mail delivery"

ENGLAND

The Chartist meeting in London passed off without any outbreak The Government had taken careful precautionary measures to preserve the Peace. The mass of the people were apparently ready to assist the government in case of need No less than 200,000 having volunteered, and had been enrolled as especial constables The Chartists assembled in great numbers on Kensington Common, but it being intimated to their leader that they would not be allowed to march in procession over Westminster Bridge, the design of doing so was relinquished and their petition was despatched to the House of Commons by delegates

In various parts of the country, public meetings are called, for the purpose of presenting loyal addresses to her Majesty in consequence of the vast numbers of foreigners from the continent having appeared in the streets of London and Dublin, who are known to have visited the United Kingdom, not upon pleasure or business. It has been determined by the government to revive the alien act for a limited period in certain cases, in order to compell the departure of these obnoxious visitors from our shore

FRANCE

The reply of Lamartine to the Irish delegates has been highly satisfactory and gratifying to the different governments of Europe

The processions of the planters of the Tree of Liberty have been suppressed, and the Mayor of Paris, in reply to the urgent demand to dismiss all foreign workmen, has endeavored to overcome their prejudices by showing how many Frenchmen were employed in other countries and the distress they would witness were they to receive reciprocal treatment

The provinces are in an agitated state in the south-west An insurrection is said to have taken place

The financial condition of France has undergone but little improvement during the past week It appears finally decided that the Bank of France will in a few days issue small notes as fifty Francs, (2 pounds sterling) the notes being actually engraved and ready for emission

The provisional government of the French republic, has just given orders for the speedy removal of Abd-el Kader and his suit to the castle of Pau

Warlike preparations, on a great scale, continued both in respect to land and sea forces

All the regiments of infantry and cavalry in the departments of the north have received orders to place their battalions and squadrons on a war footing

A battle has been fought between the Denmark forces and the army of Holstein, in which the latter were defeated, and the Danes entered Schleswig The Prussians have been ordered to expel them and in case of retaliation, the Prussians threaten invasion

LIVERPOOL, Saturday April 15

There have been indications of improvement in trade These indications will be found in the improved tone which the produce market generally has borne within the last three or four days, and particularly in the recovery of Cotton

In the Corn Market, a more active feeling was evinced, and at yesterday's market there was a good attendance of buyers, and a fair business transacted at an advance upon every article

Later from China—Arrival of the Samuel Russell.

NEW YORK April 28

Mrs A H Everett came passenger in the Sam'l Russell

Fears of trouble were still entertained in China

The Macao passage was reported blocked up

English vessels of war were arriving, and fears of an attack by foreign Hongs were entertained

The guards had been doubled

☞ The people of Portland have been greatly excited by a case of supposed abduction of a girl from that city. A Committee of investigation has been despatched to New York and the excitement allayed and the mob demonstrations abandoned.

The Suspension of Gen. Scott

From the command will give much trouble to the administration yet It leads to discontent and demoralization in the Army Should the Army not be withdrawn, and it is now too late to think of its withdrawal this season, the troops will melt away very fast with disease, they will suffer all the demoralization that results from prolonged inactivity and discontent

ANOTHER SEVERE CASE
OF ASTHMA IN NEW HAMPSHIRE CURED BY DR. WISTAR'S BALSAM

Seth W Fowle,

Dear Sir—Having for a long time been troubled with Asthma in its worst form, and after having tried various remedies, all to no effect, I bought of your agent, A Rowe, one bottle of the Balsam of Wild Cherry, which relieved me very much I have continued to use the same as the disease returns upon me, and find it always relieves when nothing else will, and further, I have no doubt could I have had the Wild Cherry in the first stages of the disease, that it would have entirely cured me I can confidently recommend it as a very valuable medicine for all lung complaints.

Last January I purchased a bottle of Curtis & Perkins' Cramp and Pain Killer, which on applying gave me immediate relief The pain is removed, and I rest perfectly well nights. Any person that will take the trouble to call on me at my store will be satisfied that an astonishing cure has been effected, as I am advanced in years. HENRY MANSFIELD.

Chloroform Toothache Drops.

It is well known that "CHLOROFORM" has superceded (in a great measure) the use of Ether, as an allayer of pain, and is now used by the best Surgeons and Dentists in preference. A celebrated Chemist (and one of the first manufacturers of Chloroform,) has discovered that "Chloroform" with other simple ingredients, will instantly cure the TOOTHACHE After using it in many cases it has never failed to give relief, there is no possible danger in using it, as it will not injure the sound teeth a particle. All that is necessary in using these Drops, is to saturate well a bit of cotton or lint, and place it in the cavity of the tooth. Relief will be immediate.

JAUNDICE BITTERS!

SPRING has again opened upon us and with it a season which requires our fullest energies both of body and mind to meet How unfortunate for us poor mortals that it is a season, too which brings upon us disease and death while the busy ushers up on us disease and death while the busy scenes of life fill all minds, and while nature is put to on her loveliest attire In the front of the front rank of all Spring disease stands that yellow eyed, yellow faced troublesome demon JAUNDICE! What multitudes has he slain and how eager [illegible] victims We meet him in our streets [illegible] every step with his cold and enervating touch felt more or less heavily by us all Where then shall we look for the friend which shall guard us from this dreadful scourge?

At HARDY'S Drug Store,

may such a friend be had at a cost which shall [illegible] Yes for a mere trifle you [illegible] but a certain and speedy cure for Jaundice and all Billious troubles in Dr MANLY HARDY'S

JAUNDICE BITTERS,

which for thirty years have been quietly but surely working out for themselves a reputation far above all others standing now upon an eminence too lofty to be scaled by the voice of envy or detraction Indeed they never fail to cure, and he a subscriber here pledges himself to refund all money paid him for Bitters if they do not effect a cure, when taken according to his directions Do not [illegible] different kinds of "Jaundice Bitters" are before the public the virtues of which the subscriber will not speak even that which he [illegible] and will therefore only say he *does* know that almost every person at this season need [illegible] take HARDY'S BITTERS, and taking them need no others They may be found not only at the subscribers, but at most of the Drug Stores in Maine

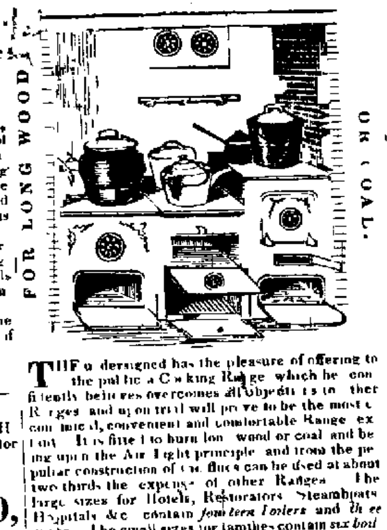
The Mastodon Air Tight

COOKING RANGE,



THE undersigned has the pleasure of offering to the public a Cooking Range which he confidently believes overcomes all objections to other Ranges and upon trial will prove to be the most economical, convenient and comfortable Range extant It is fitted to burn long wood or coal and being upon the Air Tight principle and from the peculiar construction of the flues can be used at about two thirds the expense of other Ranges The large sizes for Hotels, Restorators Steamboats Hospitals &c contain *fourteen boilers* and *three ovens* The small sizes for families contain *six boilers* and *three ovens* By using wood in summer and closing the dampers between meals it will not make the room uncomfortably warm, while in Winter it will warm the room as well as other Ranges with much less consumption of coal The ovens are in front avoiding the danger and inconvenience of reaching over the fire to use them, and the main oven being elevated prevents the inconvenience of stooping

In Winter the food can be easily kept warm by the auxiliary ovens and large surface The flues can be cleaned when foul in a few minutes *without taking out the oven* and if the iron work should require repairs it can be taken apart and replaced *without disturbing the brick work*

John M Dearborn Esq the inventor received a Diploma for this Range at the late Mechanics Fair in Boston The Diploma may be seen at the Warerooms of the subscriber

References can be given where these Ranges are in use and one can be seen ready for operation at the RANGE STOVE and FURNACE WAREHOUSE No 80 Main Street, Bangor Also on hand all other Improved RANGES, for sale at the lowest rates

PATENTS.

AMERICAN AND FOREIGN OFFICE,

And Agency of the U S Patent Office, Washington

22 State Street—Boston.

THE subscriber by appointment from the Commissioner of Patents, is Agent of the U S Patent Office for the purpose of receiving and forwarding to the same all such models, specimens of ingredients and manufactures, as shall be intended to be patented, or deposited therein, which will be received and forwarded, free of expense and risk, to their owners and with all possible despatch The subscriber will prepare Caveats, Specifications Assignments, and all the necessary Papers and Drawings, will make researches into American and Foreign works, for establishing the validity or utility of inventions, and render advice on all legal and scientific matters respecting the same Patents secured in Europe and other countries

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents The experience of fifteen years practice—an extensive collection of rare works, documents, decisions &c on mechanical subjects and the Patent Laws—and patents of different countries, collected at much expense during the long time this office has been established, and to which daily additions are being made together with accounts here kept of inventions patented at Washington, enable me to afford important assistance and information to inventors desirous of securing Patents, which in other respects might be difficult of attainment

Important Letter.

MESSRS CURTIS & SMITH

Dear Sirs—I herewith enclose you a few lines relative to your "Downs Elixir," which, for the benefit of the suffering if you think worthy you are at liberty to make public About a year and a half ago my mother became sick, so that in a short time we began greatly to fear for her life Her symptoms were, bad cough, pain in the side and stomach, night sweats and other premonitory signs of pulmonary consumption We consulted our best physicians, who gave her little or no relief and finally pronounced her case incurable consumption She continued to become weaker and the symptoms more confirmed

About this time at the suggestion of a friend, we concluded to try Downs Elixir Having procured a bottle from your agent (S R Byram of Eastport) she commenced taking it At first it seemed only to mitigate the severity of the symptoms, but in a short time her health began evidently to improve It cured her cough, relieved her night sweats, and greatly improved the tone of the whole system—After having continued its use most of the time for nearly a year, she calls herself cured She is now able to go about the house and superintend affairs as usual Under God we believe that to Downs Elixer, alone, she owes the preservation of her life and the restoration of former strength and energy We have also used it in our family in other cases for which it is recommended in the pamphlets, with universal success Yours truly,

(Signed) SWAIN P NORDSTROM

The above is only one of a thousand similar letters which we are constantly receiving from all parts of the country, almost daily

DOWNS' ELIXIR is unquestionably the best article known for the cure of *COUGHS, COLDS* and *CONSUMPTION* It is more certain to give relief in all cases of *ASTHMA*—often a perfect cure—than any thing hitherto offered to the public

In cases of *WHOOPING COUGH* it needs only to be tried to give it preference over all other remedies It immediately breaks up the cough and renders a mere plaything what is otherwise a scourge and terror For the *CROUP* it is a positive cure We speak with confidence for it has never failed and we believe never will, when used according to directions

3000 cases of Consumption

and thousands of cases of diseases of the blood, viz—Ulcers, erysipelas, saltrheum, pimples on the face, &c &c together with numerous cases of sick headache, pain in the side and chest, spinal affection, &c, &c

This, we are aware, must appear incredible, but we have letters from physicians and our agents from all parts of the United States informing us of extraordinary cures R Van Buskirk Esq, one of the most respectable druggists in Newark, N J, informs us that he can refer to more than 150 cases in that place alone, There are thousands of cases in the City of New York which we will refer to with pleasure, and to men of character It is the best medicine for the preventative of disease known It undoubtedly saved the lives of more than

5,000 CHILDREN, THE PAST SEASON,

as it removed the cause of disease, and prepared them for the summer season It has never been known to injure in the least the most delicate child

RHEUMATISM

This Sarsaparilla is used with the most perfect success in Rheumatic complaints, however severe or chronic The astonishing cures it has performed are indeed wonderful Other remedies sometimes give temporary relief, this entirely eradicates it from the system even when the limbs and bones are dreadfully swollen

☞ Hear Mr Seth Terry, one of the oldest and most respectable lawyers in Hartford, Conn The following is an extract of a letter received from him

Dr Townsend—I have used one bottle of your Sarsaparilla, and I find it is excellent in its effects upon a chronic rheumatic pain to which I am subject from an injury occasioned several years ago in a public stage Please send me two bottles to the care of Dr Seymour I have conversed with two of our principal physicians and recommended your Sarsaparilla SETH TERRY

CONSUMPTION CURED.

Cleanse and Strengthen Consumption can be cured Bronchitis Consumption Liver Complaint, Colds, Catarrh, Cough Asthma Spitting of Blood Soreness in the Chest, Hectic Flush Night Sweats Difficult or Profuse Expectoration, Pain in the Side, &c, have been and can be cured.

Dr Townsend—Dear Sir Nearly twenty years ago I took a violent cold which settled on my lungs, and affected me severely—Indeed, finally it became a constant hacking cough, but not so severe as to prevent me from attending to my business Within the last few years it increased on me gradually At last I became alarmed—I breathed with difficulty and raised with my cough much bad matter and for the last nine months previous to using your Sarsaparilla, had regular night sweats, indeed, my friends and myself supposed that I would die with the Consumption, but I have the happiness to inform you that, to my surprise, after using three bottles of your Sarsaparilla I find my health restored It relieved me gradually, and I am now enjoying much better health than I have before in 26 years I had almost entirely lost my appetite which is also returned You are at liberty to publish this with my name in the papers, if you choose.

My little girl, who is 5 years old had a very bad cough the whole of last Winter We became very much alarmed on her account While using the medicine I gave her some of it and it soon entirely relieved her, as well as myself and she is well now, and hearty, as any child I ever saw She was also full of little blotches, it took them away, and her skin is smooth and fair now, and I am satisfied and recovered her health from using your excellent medicine

GIRLS READ THIS

You who have pale complexions, dull eyes, blotches on the face, rough skin, and are "out of spirits," use a bottle or two of Dr Townsend's Sarsaparilla It will cleanse your blood, remove the freckles and blotches, and give you animation sparkling eyes fine spirits and beautiful complexion—all of which are of immense value to unmarried ladies.

GREAT FEMALE MEDICINE

Dr Townsend's Sarsaparilla is a sovereign and speedy cure for incipient Consumption, Barrenness, Leucorrhoea, or Whites, obstructed or difficult Menstruation Incontinence of Urine, or involuntary discharge thereof, and for the general prostration of the system—no matter whether the result of inherent cause or causes produced by irregularity, illness or accident.

Nothing can be more surprising than its invigorating effects on the human frame Persons subject to weakness and lassitude, from taking it, at once become robust and full of energy under its influence It immediately counteracts the nervelessness of the female frame which is the great cause of barrenness

It will not be expected of us, in cases of so delicate a nature to exhibit certificates of cures performed but we can assure the afflicted that hundreds of cases have been reported to us Several cases where families have been without children, after using a few bottles of this invaluable medicine have been blessed with fine, healthy offspring

Dr Townsend My wife being greatly distressed by weakness and general debility, and suffering continually by pain and a sensation of bearing down, falling of the womb and with other difficulties, and having known cases where your medicine has effected great cures, and also hearing it recommended for such cases as I have described I obtained a bottle of your Extract of Sarsaparilla, and followed the directions you gave me. In a short period it removed her complaints and restored her to health Being grateful for the benefits she received, I take pleasure in thus acknowledging it and recommending it to the public M D MOORE

TO MOTHERS AND MARRIED LADIES

This extract of Sarsaparilla has been expressly prepared in reference to female complaints No female who has reason to suppose she is approaching that critical period, "the turn of life," should neglect to take it, as it is a certain preventative for any of the numerous and horrible diseases to which females are subject at this time of life This period may be delayed for several years by using this medicine Nor is it less valuable to those who are approaching womanhood as it is calculated to assist nature by quickening the blood and invigorating the system. Indeed this medicine is invaluable for all of the delicate diseases to which women are subject It braces the whole system, renews permanently the natural energies—by removing the impurities of the body, not so far stimulating the system as to produce a subsequent relaxation—which is the case of most medicine taken for female weakness and disease

SCROFULA CURED

This Certificate conclusively proves that this Sarsaparilla has perfect control of the most obstinate diseases of the blood. Three persons cured in one house is unprecedented

THREE CHILDREN

Dr Townsend Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine—They were afflicted very severely with bad sores have taken some four bottles, it took them away, for which I feel myself under deep obligation Yrs respectfully

Capt. G. W McLean, of the U. S. Marine Corps, and member of the New Jersey Legislature, has kindly sent us the following certificate It tells its own story

RAHWAY, Jan 25, 1847

A year since I was taken with the influenza, and my whole system left in a debilitated state. I was induced to try Dr. Townsend's Sarsaparilla, and after taking two or three bottles, I was very much relieved, and attribute it entirely to the said Sarsaparilla. I have continued taking it, and find that I improve every day. I believe that it saved my life, and would not be without it under any consideration. G. W. McLEAN

Patent Mill Wheels.

Timbey's Patent

Two Vent Cast Iron Water Wheels,

—for—

SAW MILLS,

Invented by T. R. Timbey of Cato N. Y.

THE undersigned would invite the attention of the Public to the above named WHEELS, which have been thoroughly tested in *Competition* with all other popular

SAW MILL WHEELS

in use at the present time, and they can confidently recommend them, with the same head and quantity of water applied, as possessing and combining *more Strength and Speed*, and giving a more *uniform* and *Steady Motion* "in and out of the cut (and therefore not liable to break cranks,) and will also run *longer* and *Saw more Lumber* under a low head than any other Wheel in use.

Another advantage which this Wheel has over others is that it is constructed with but Two Vents for the discharge of water which makes the apertures larger and allows the "drift stuff" to escape without filling up the Wheel

Persons wishing to adopt the BEST WHEEL will do well to call and examine before purchasing elsewhere

We would also call the attention of Mill Owners and Operators to

Valentine's Patent

Reversing Centrifugal Water Wheel,

—FOR—

"UPRIGHT SHAFTS,"

WHICH are adapted for driving all kinds of Machinery in Manufacturing establishments or Mills, and are made of different sizes so as to give any amount of power required and from the reputation these Wheels have acquired by the successful operation of several hundred of them already sold and in use, we feel confident in recommending them as combining more advantages than any other Wheel, for perpendicular Shafts, now used

As evidence of the merits of this Wheel we would refer to the following extracts from the report of experiments made with the same by ITHAMAR A, BEARD Esq *Civil Engineer*—Lowell Mass who is well known as one of the most Scientific and experienced practical Engineers in this country,

"This wheel is formed with curved floats the number depending upon the size and vent of the Wheel each extending so far around the Wheel, that when the water arrives at the jet its pressure is so far expended that it falls very nearly inert from the Wheel The Wheel is inclosed in a cylindrical wooden curb or flume in which the water stands at its full head, the column being sustained by the stationary plate underneath the Wheel, so that it has no downward pressure upon the Wheel, which stands perfectly free in the column of water and by this arrangement all the friction on the step and bearing of the Wheel is avoided, and so much of the power saved, which in the ordinary mode of operation is wholly lost.

"This Wheel is adapted to low as well as high heads of water and will run as well in back water as out of it providing the head rises in a freshet as fast as the back water But a Wheel with the jets rightly gauged for a high head will not answer for a low one, and vice versa for as the head increases, the width of the jets should be proportionably decreased so that the water may not issue to waste, and not give its best effect to the Wheel

"In point of power the trials show conclusively that this Wheel is superior to the best constructed Breast Wheels and it has the advantage of working with good effect in situations where the Breast Wheel would be worthless is less liable to need repairs, easily accessible when they are needed costs much less in the outlay, is much more durable, and takes very much less room in a mill or shop—Simplicity of structure durability of parts convenience of application and excellence of power are the grand points of recommendation for this Wheel.
ITHAMAR A BEARD, *Civil Engineer*"

Vegetable Internal Remedy

FOR THE PILES!

A Cure for Life Secured.

For the cure of Piles, Inflammation of the Liver and Spleen, Inflammation, Soreness and Ulceration of the Stomach Bowels, Kidney and Bladder Inflammatory and Mercurial Rheumatism, Impurity of Blood Weakness and Inflammation of the Spine, and for the relief of Married Ladies

THE VEGETABLE PILE ELECTUARY

invented by Dr A Upham, a distinguished Physician of New York city, is the only really successful remedy for that dangerous and distressing complaint, the Piles, ever offered to the American public

Mark this it is an INTERNAL REMEDY—not an external application, and will cure any case of Piles, either bleeding or blind, internal or external, and probably the only thing that will There is no mistake about it It is a positive cure—*speedy and permanent*. It is also a convenient medicine to take, and improves the general health in a remarkable manner

Each box contains twelve doses, at 8 1 3 cts per dose, It is very mild in its operation, and may be taken in cases of the most acute inflammation without danger—All external applications are in the highest degree disagreeable, inconvenient and offensive, and from the very nature of the disease, temporary in their effects. This Medicine attacks the disease at its source, and, REMOVING THE CAUSE, renders the cure CERTAIN and PERMANENT.

INFLAMMATORY DISEASES

Although the ELECTUARY was originally prepared for the cure of Piles, yet it has proved itself a medicine far superior to all others, in all diseases of an inflammatory character with a determination of blood to any particular part or organ In inflammation and congestion of the Liver and Spleen, Inflammation, Soreness and Ulceration of the Stomach, Bowels, Kidneys and Bladder, in inflammatory and mercurial Rheumatism, it is the *Best Medicine ever discovered*

IMPURITIES OF THE BLOOD

For all impurities of the Blood, arising from the imprudent use of Mercury, or other causes, for all diseases of the Skin, and Scrofulous Affections, in all cases where the blood is powerfully determined to the head, producing dizziness and distress, DR UPHAM'S ELECTUARY is entirely unrivalled

TO MARRIED LADIES

Married Ladies are almost invariably subject to that painful and injurious disease, the PILES, with consequent inflammation of the Stomach, Bowels and Spine, weakness of the back, flow of blood to the head, &c.—The Electuary is perfectly safe for Pregnant Ladies, and the most useful Cathartic that can possibly be used, as it will not only remove the Piles and all inflammatory diseases, WITHOUT PAIN or IRRITATION, but will ensure an easy time, a safe delivery and a sound constitution in the offspring

CURE FOR LIFE GUARANTIED

The Electuary contains NO MINERAL Medicine no Aloes, Colocynth, Gamboge, or other powerful and irritating purgative No fear of taking cold while under its influence, no change in diet necessary. If taken according to the directions, A CURE FOR LIFE IS GUARANTIED

Pamphlets giving valuable information respecting this Medicine, may be had of Agents, gratis

GREAT SUCCESS OF UPHAM'S

PILE ELECTUARY.

Portland, Me, March 14, 1847.

Dr UPHAM—My dear Sir—I cannot express to you my sincere and heartfelt thanks for the wonderful cure I have experienced by the use of your truly valuable Pile Electuary I have been a perfect martyr to the Bleeding Piles for 10 years past, so much so that I became reduced to almost a skeleton, with loss of appetite, and general derangement of the digestive organs My eyes also became affected, and in fact I was a misery to myself I was obliged to give up my business I had tried all kinds of medicine, had the best advice the Doctors in Boston and this place could afford, spent much money—and twice submitted to painful operations. I had become perfectly tired of life, and at the suggestion of my friends I was induced to try a box of your medicine. The first I found to relieve me slightly, still I persevered, and purchased a second, and I assure you, when I got half through, I found myself getting well, still I kept on, and now I am a well man My dear Sir, language cannot express the heart felt thanks that I am once more restored to health, and now in a condition to support my large family, dependent on me.

You can use this letter as you please
Yours respectfully, SAMUEL CHARLTON.

DR. CUMMINGS'S

Compound Extract of Sarsaparilla and Dock.

THE articles above named are the principal ingredients of this medicine With these, others of vegetable origin are combined, designed to render them more active, and consequently more immediately effective

The Dock, or rather a species of it, now ranks as a medicinal plant, second to no one of the vegetable kingdom With the aid of a distinguished chemist, whom the proprietor has consulted in the preparation of the compound, he has succeeded in overcoming the difficulty of preserving the extract of the root for any considerable length of time

For many years the proprietor has tested in his practice the efficacy of the principal substances of the compound, and is perfectly satisfied that they possess all the properties which have been ascribed to them Recently he conceived the idea of uniting them, which has resulted in the production of the compound In this the ingredients are found to act in harmony, and to lose none of the qualities which they separately possess

A larger portion of Sarsaparilla is soluble than has generally been supposed The extract most to be relied on and least liable to decomposition, is procured by subjecting the root to the action of the menstrua usually employed in extracting its virtues, for a long time without heat or any other accelerating agent. None is permitted to be used in the compound, that has not been obtained by this process and that has been less than a year in preparation

The Compound is recommended for Scrofula Erysipelas, Ulcerous affections, Eruptions, and Mercurial diseases Also for the numerous maladies arising from sedentary employments, occupations of a harassing and fatiguing nature, intense application, exposures to extremes of heat and cold, overtasking the physical powers and other abuses of the constitution among which are Neuralgia, Piles, Affection of the Liver, Bilious Complaints and Dyspepsia or Indigestion

In diseases of warm climates, with which the proprietor become familiar in his practice in Havana, some years since, the compound will prove particularly efficacious, both as a remedy and a preventative

This medicine has been for some time in use in this city, where the proprietor has passed nearly half a century of his professional life It was extensively prescribed by him while in practice, and it is believed to be in favor with his medical brethren in general, to whom he is known.

Messrs FORD & GRANT, Gentlemen—I herewith transmit to you, my certificate, for the benefit of those who may have horses similarly affected

I, hereby certify that one of my best horses in the winter of 1846 7 became afflicted with the heaves in the most aggravated form—which I allowed to run between three and four months without doing anything for him Having heard of the unparalleled repute of "Dillow's Heave Cure" I purchased three packages of it, gave it to him, and it entirely removed the disease. From that time to the present he has been in perfectly sound condition

UNIVERSAL CONDITION MEDICINE

Read the testimony of an eminent Boston Farrier

Boston, January 9th 1848

Messrs Ford & Grant Gentlemen—At the request of your Agents here, I send you my opinion of your celebrated Dillow's Heave Cure As an Universal *Condition Medicine*, as well as a sure cure for the Heaves and all diseases arising from an affection of the bronchial tubes, parotid and submaxillary glands, and the lungs, and also from its general and alterative properties I recommend it to be the best medicine extant for cases of Farcy, Sorfeit, Chest Founder, Dropsy of Skin and Chest, Fever, Pleurisy, Jaundice, Hide Bound, Inflammation of the Kidneys and Mange. I conceive it to be a vegetable compound which operates on the animal system in the same manner that Yellow Dock and Sarsaparilla operates upon the human system I would call the attention of the horse owning public to the fact that nine tenths of the above Diseases are contracted through neglect during the Moulting Season or time of changing the hair, which takes place during the most inclement seasons in the whole year, at which time, if the horse is exposed and neglected the pores of the skin close up and the circulation of the fluids cease If left in that condition, Disease in some form, must ensue It is at this time that I consider this *Invaluable Powder* indispensible, as it operates upon the pores and Fluids of the Skin and causes the hair to fall off in due time, makes way for the new and imparts to it a fine and glossy appearance

This is to Certify that I, Nelson Larrabee, of Jersey City, have been subject to a dry hacking cough and a pain in the side and chest, attended with night sweats and general weakness of the system for a period of twenty years, and pronounced INCURABLE CONSUMPTIVE, neither the advice of regular physicians nor the many advertised remedies I have seen have been of any permanent benefit, and I was sinking hopelessly to the grave of my disease, until I was persuaded to try Dr E W VONDERSMITH'S INDIAN COUGH BALM AND LUNG BALSAM by the aid of which, all my symptoms have been removed and I have been wonderfully restored to the blessings of health, and the prospect of a prolonged existence

INFLAMMATION OF THE LUNGS

New York June 19 1847

DR VONDERSMITH—I have been subject to a cough, pain in the chest, difficulty of breathing, &c, for many years past About four months ago I took a severe cold which settled on my lungs I was unable to attend to my business during the day I had bad spells of that I thought I could not possibly survive until I could get relief The excessive night sweats had reduced my whole body to a skeleton I expectorated white frothy mucous, in fact, should I give the full particulars of my case, it would be almost incredible I was recommended to try Dr VONDERSMITH'S INDIAN COUGH BALM AND LUNG BALSAM I consented when I had used it about one week, my cough decreased considerable, which gave me great hopes I continued with the medicine according to directions, and the result has been that I am restored to health, a blessing that I have not enjoyed for years, until the present time, I sincerely believe had I not made use of Dr V's invaluable Medicine, that I would be mouldering in the silent grave Therefore I believe that I am doing nothing but justice, in stating the above facts, so that you may shew it to all the afflicted who may call upon you to administer to them I shall be pleased at any time to converse with the afflicted who may call upon me
